PROFESSIONAL EXPERIENCE .

WEB DEVELOPER | FIRSTZEN SOLUTIONS PVT. LTD | JULY 2021 – AUGUST 2023
- Worked on frontend projects that were developed in a professional manner using HTML5, CSS3, JavaScript, and React Js.
- Utilized state management tools like React Context and Redux for efficient data handling, enabling seamless communication between components and facilitating a superior user experience.
- Improved company's business website performance up to 30% by adding new features and functionalities.
- Employed React Router for creating dynamic, single-page application (SPAs), SASS, enhancing user navigation and ensuring a smooth flow between different views.
- Integrated third-party APIs and data sources, using asynchronous programming techniques such as Promises and async/await to fetch and display real-time data.
- Utilized Redux for state management, ensuring efficient data flow and centralized state handling in complex applications.
- Interacted and worked with cross-functional teams.
- Developed applications for different browsers and fixed bugs for browser compatibility.
- Worked closely with project management and marketing team to completely define specifications to help ensure project acceptance.
- Implemented Agile methodologies and participated in Scrum ceremonies to drive continuous improvement and project success.

PERSONAL PROJECTS .

AMAZON CLONE
- Developed an Amazon clone using HTML, CSS, JavaScript, and React, replicating e-commerce functionalities.
- Leveraged React Context API for efficient state management, enabling dynamic content updates and seamless user interactions.
- Implemented responsive design and user centric features to create an engaging e-commerce experience.

Personal Portfolio Website
- Crafted a dynamic personal portfolio with HTML, CSS, and JavaScript to showcase skills and projects with a focus on responsive design and user engagement.
-
